Raffle will be held during the potluck lunch

1:00 Leimone Waite, Horticultural chair, Shasta College Presents:

“Soil - The New Frontier.” Most of us are familiar with the above ground ecosystem that supports our daily lives but few know the complexity of the soil ecosystem and its importance to our gardens and our health. This presentation will introduce you to the life under the soil and some of the new findings for that have been uncovered in the past few years. Soil organisms are not just for composting; they are being used for everything from new antibiotics to toxic waste clean-up. **WORTH 1 CR CREDIT**
